she is clearly made only to make sisters of sigmar a little more even with everyone else because yeah the sisters cannot already beat people without ranged weapons, doh this class is still featuring melee it just looks and works as a ranged player with a sisters of sigmar strength.

But she has no deal to do with them, besides work for them but this seems like this should have been added as loan deal and free, and then made an dlc feature to one of the races.

Her design is laxy, 1 hat features colors for the feathers, 1 shirt, 2 arm designs not featuring anything new looking lazy, the pants was taken hero class design of the human, lazy.

Why this is not a free update since she is clearly all loaned from other faction, which the hero loan system should feature already lawl, and dont come and say things like: "but its named smugglers, duh". its lazy and should have been free lawl make something cooler :P

The globe rat is atleast an actural class from the rats, and he was needed to make their ranged playstyle give them more benefit since the direct combat leads them to be slaughtered.. This is yet another rpg game, besides that this game was very enjoyable, why? because serious battles and events are broken up with humour, the story is absurd and the characters have interesting back stories and emotions.

The only thing I would have to complain about is that it has a couple of glitches but the developers are able to fix these issues fairly promptly. All in all if you want a game that cracks you up, gives you a giggle and doesn't take too long this game is for you!

7/10

I liked the game but I found it hard to sustain my interest at times, and sometimes found it hard to actually find where I had to go as the directions were very vague from the in-game characters.. Gearbox + Valve = Perfection.. Perfect for the Formula 1 fan or fan of racing games.. Keep Defending is a first-person VR tower defense archery game where you have to kill the enemies before they reach your gate. You also have the ability to purchase defences during battle, with the gold that you can earn with each enemy you defeat. There are a range of different defences available to purchase, varying in cost based on their in game value, including archers, wizards, knights, cannons, and more, each with different abilities, which you can employ based on your strategy. The game also offers a competitive aspect with Steam leader-boards so that you can compare your score against other players. The gameplay and mechanics are excellent, as is the music and animation making the game immersive and fun. There are ten levels, and also different difficulty levels that you can choose to play the levels at. Each level is set in a different environment and you encounter a range of enemies along the way. It is also great value for money, as it can be quite addictive as the competitive aspect gives the game a lot of replay value. The only improvement I could suggest is perhaps the option to play multiplayer. One of the best VR tower defense games I have yet to play.

<https://www.youtube.com/watch?v=lfBUpC9zsrM>. As others have said, this is pretty much a reskin of Kingdom Rush with more modern units and towers. As far as I can tell (5 or 6 levels in) there is no option to speed up the game which makes it nearly unbearable to play. The hero controls feel clunky as well.

If speed controls were added to let me go at least 3x as fast I would give a better review that said if you liked Kingdom Rush you won't hate this.. I was very excited for this game being the first 3d american football game on steam but i was dissapointed. I bought this game thinking it was a buy once and thats it but after asking the dev he says it will be yearly (like madden) the stroe paged metioned new graphics and a franchise mode (dont be fooled this wont be till the 2016 version another 20\$) the season mode is terrible and basic and there is only to modes that and a quick game. the physics are terrible and graphics mediocre .If this game was a buy once game i would recommend it because of all the great ideas they have but if you want the better features you will have to wait till the 2016 version comes out (another 20\$) i am very disapointed.

addicting, dont listen to the hate reviews down below.. insert lenny face :) not perfect, but very good. Rin best girl.

also had some problems, game didn't open, but sekaiproject customer support answered very quickly.

Overall, I'm satisfied.

9/10 will play again, would recommend. The description does not warn you that you need specific train DLC to access most of these scenarios. I can only play 2 out of 8 promised in the description, having bought the basic Train Simulator 2015 package.. Sweet game!. A dramatically easy game to play and complete 100%. There isn't really enough content to be considered a game and I don't think this game is worth any money. I think there should be more content before I can recommend the game.
