[Idbe Ribbon Creator 2010 Crack](#)

The screenshot shows a web interface for a BSNL Broadband router. The page title is "Upgrade" and the main heading is "Firmware upgrade". The current firmware version is 10.4.3.12.12. There is a section for "Automatically Check for Updates" with a "Check for Updates >" button. Below that is a "New Firmware File Name:" field with a "Browse..." button. A warning message states: "Warning: DO NOT switch off your Router during firmware upgrades. Please wait for the upgrade to complete before continuing to navigate the configuration manager." At the bottom right, there is an "Upgrade" button. The left sidebar contains navigation links: Home, Overview, System Log, Troubleshooting, Configuration, Security, Services, DSL Home, Port Statistics, and Admin (with sub-links for Firmware Upgrade, Backup & Restore, Reboot, Remote Access, Lan Access, Change Password, and Time Zone). The BSNL Broadband logo is in the top left, and the teracom logo is in the top right.
